WHY GOVERNMENTS FAIL

ANCIENT CONSTITUTIONS DESIGNED ONLY FOR:

- Rule of Law
- Democracy
- Human Rights

Will more politics fix it? They can't

Will more democracy fix it? Not on its own

UK based analysis, but applies to EU, US, and everywhere

NEVER BEEN DESIGNED FOR THEIR MODERN REMIT

- Spending 40%+ gdp
- Run very large public sectors
- Regulate major industries
- Debt
- Longevity and intergenerational challenges
- Global finance
- Decision complexity
- Marauding corporates
- Powerful news media

Power in the wrong places, politics in the wrong places

Therefore design the system for modern government
